

MANUEL MALLA CAMPOVERDE

Information Technologies Engineering student / Software developer

✉ mmalla1@outlook.com ☎ (+593) 979489503 🌐 manuel-josue-malla 📷 jossuema

SUMMARY

Young information technologies engineering student passionate about some areas of current technology as software development, data science and electronics. I love building technology and digital solutions focused on real-world problems. I like to learn and train myself in the new technologies of the present and future.

EDUCATION

Universidad Técnica de Machala

Machala, Ecuador

Bachelor of Science in Information Technology

May 2022- March 2027

Relevant courses: Programming fundamentals, Object Oriented Programming, Data structures, Databases fundamentals, Advanced programming, Digital systems.

SKILLS

Programming: Python, Java, JavaScript, TypeScript, C#

Technologies: Deep learning, Computer vision, Tensorflow, ReactJs, .NET, .NET framework, Spring, ExpressJs, NodeJs

Tools: Git, GitHub, Azure, Docker

Scripts: HTML, JSP, JavaScript, linux shell

IDEs: NetBeans, IntelliJ, Eclipse, Visual Studio, Visual Studio Code

Databases: SQL, MySQL, PostgreSQL, SQL server, Redis

Languages: Spanish (native), English (Intermediate advanced)

RELEVANT CERTIFICATIONS AND COURSES

Second Regional Workshop on Data Science Applications and Research (TaReCDa/ReWARDS)

Hosted by Universidad Técnica de Machala and Rice University, in collaboration with Google Research

November – December 2024

The Regional Workshop and Research in Data Science is an event organized by Rice University professors and supported by Google Research where undergraduate students from Ecuador and Peru have the opportunity to learn and explore research ideas in data science fields such as machine learning, computer vision, large language models and neural networks with professionals from the academy and industry as mentors. The event consisted of a phase of virtual workshops followed by a two-days conferences phase.

VOLUNTEERING

Microsoft Student Ambassador

Jan 2024 - Present

- Science and Technology
- Student Ambassadors are a global group of campus leaders who are eager to help fellow students, create robust tech communities and develop technical and career skills for the future.
